Amber,

Your work plan is approved as written with the following exception:

- Section TH3 should be further excavated approximately 2 feet to the west in order to take out the 9,330 chlorides found.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
Environmental Specialist
NMOCD District II
(575)748-1283 ext.101

Please find attached a work plan for the Martha AIK Federal #6 (2RP-1697 and 2RP-1856).

Yates would like to start this work by the beginning of next week (7/28) or as soon as crews are done backfilling at the Martha AIK Federal #1.

Should you have any questions or comments, please let me know.
