Yates Petroleum requests closure based on work being completed as approved by NMOCD from a work plan submitted to the agency on 7/21/2014. All analytical reports and site diagram of release area were submitted to the agency in the work plan. The site will be re-seeded with BLM LPC Seed mix. No further work is needed at this site. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
