No well will be assigned an allowable greater than the amount of oil produced on the official test.

During gas-oil ratio tests each well shall be produced at a rate not exceeding the top unit allowable for the pool in which it is located by more than 25 percent. [illegible] to take advantage of this 25 percent tolerance [illegible] that well [illegible] increased allowables when [illegible] test.

Gas volumes must be reported in M.C.F. measured at a pressure base of 15.025 psia and a temperature of 60° F. Specific gravity base will be 0.60.

Report casing pressure in lieu of tubing pressure for any well producing through casing.

Mail original and one copy of this report to the district office of the New Mexico Oil Conservation Commission in accordance with Rule 301 and appropriate pool rules.

I hereby certify that the above information is true and complete to the best of my knowledge and belief.

President 6/[illegible]/87
