Kandis,

OCD has reviewed the two below grade tanks and concur that there was never a BGT on location.

Considered the two registrations on file to be closed. Please keep this for your records as a hard copy will not be sent to you.

Subject: [EXT] FW: [EXTERNAL] Compliance issues in T28N R9W 11/12/2020

Cory/Jonathan,

BGT permit was filed for the two wells listed below by ConocoPhillips in 2008 but no BGT is onsite currently or historically. Prior OCD inspection did not indicate the presence of a BGT as found by Jonathan Kelly.

HEC would like to request C-144 BGT permit be cancelled/rescinded has it was submitted by clerical error.

Subject: [EXTERNAL] Compliance issues in T28N R9W 11/12/2020

Good morning,

I encountered the following compliance issues while inspecting wells in T28N R9W yesterday. Compliance is due 2/11/2021.

cJK2031824965 - [30-045-25314] JACKSON COM #001 – High level shut off on below grade tank is disconnected and inoperable as required by 19.15.17 NMAC.
cJK2031825014 - [30-045-25314] JACKSON COM #001 - Location has a steel single wall single bottom below grade tank with base not visible.
cJK2031825497 - [30-045-30885] MICHENER LS #003M - Well has a steel single wall single bottom below grade tank with base not visible.

Additionally, here is the list of locations that have C-144 issues.

[30-045-26911] STATE 16 #005	11/12/2020	Below grade tank indicated in 2014 and 2011 inspections was closed between 2014 and 2016, no C-144 Below grade tank Closure Permit in well file, C-144 below grade tank registration in well file.
[30-045-07480] SANCHEZ A COM #001	11/12/2020	C-144 below grade tank registration in well file, no below grade tank on location, will review and send to operator to determine path forward.
[30-045-30885] MICHENER LS #003M	11/12/2020	No C-144 below grade tank registration in well file.
[30-045-07410] MICHENER LS #003	11/12/2020	No C-144 below grade tank registration in well file.
[30-045-07354] HANCOCK B #004	11/12/2020	C-144 below grade tank registration in well file, no below grade tank on location, will review and send to operator to determine path forward.

Please email me notification with photos of the corrected items to help expedite clearing the compliance. Any replacement well signs should be appropriately located on location and follow requirements of 19.15.16.8 NMAC and other applicable regulatory agency requirements with information complete and correct. If you have any questions regarding any of the above items, please do not hesitate to contact me.

For field compliance issues that may be delayed due to the public health emergency please contact your OCD field representative prior to the expiration date and request an extension. Include the reason for the delay and the estimated extension timeframe being requested.

Thank you,

Jonathan D. Kelly
