Subject: RE: OXY-Neff Federal #1 and #3 SWD Battery - Remediation Plan
Date: Wednesday, August 20, 2014 9:54:00 AM

Cliff,

This remediation plan is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: OXY-Neff Federal #1 and #3 SWD Battery - Remediation Plan

Mike,

This e-mail is to confirm our conversation on August 11, 2014 about the remediation plan for the above referenced site. I have attached the materials that we used in our discussion. As discussed, Oxy will excavate to a depth of 6 inches in the area of SP1 and SP2. In the area around SP3, the excavation will be 3 to 4 feet with a liner then put in place. In the area of SP4, the excavation will be 1 foot. The liner inside the battery will be cleaned as well. All of these areas are depicted on the attached diagram. Then the site will then be backfilled with clean soil.

If you would please e-mail your concurrence with this remediation plan, it would be greatly appreciated.

Thanks, Cliff
