RE: Devon \* H B 10 Fed #1H \* 30-015-29157 \* **2RP-2390**

Ms. Wilson,

Your remediation plan is approved as written, but the OCD will need to review confirmation sample data before this site is backfilled. Based on the ChevronTexaco Trend map, we have reason to believe the depth to ground water is less than 100' for this site. Additional information from the OSE database suggests ground water could potentially be less than 50'. Target remediation goals need to be adjusted accordingly.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson  
Environmental Specialist  
NMOCD District II
