Subject: Re: Stephens & Johnson - Mobil 22 Federal #6 - Work Plan Approval Request  
Date: Monday, May 12, 2014 7:52:56 AM

---

The plan is approved.

Stips:

1. Vertical delineation will need to be completed.
2. Horizontal delineation can be completed as work is being performed through field titration. Once sidewalls show clean, lab samples will be needed to confirm. The confirmation will not hold up back-filling. If you are confident with your titrations, back-filling can commence.
3. A 40 mil liner will need to be used as the barrier due to high chloride levels.

If you have any questions please let me know. Thanks

Gentlemen,

Please find the enclosed Work Plan for the above referenced site located in Eddy County, New Mexico. The work plan includes the soil assessment and recommendations for remediation of the site. I will mail you a hard copy of the work plan for your files. Once approved, Tetra Tech will schedule the soil remediation and notify you prior to implementing the work plan. Please let me know if you need additional information or call me if you have any questions, thanks
