Thanks so much Randy,
It was nice to meet with you yesterday and get caught up on the sites. Could I ask that you consider allowing us to also P&A MW-3 at the 2009 Release (3RP-448)? This is the well that just came back with its 8th consecutive quarter of being below standards. It would be great to P&A MW-3 at the same time as the others.

Thanks also for the letter detailing the approval. Have a great holiday weekend,
Beth
