RE: SM Energy * Parkway Delaware Unit #704 * 30-015-30028 * 2RP-2551

Tom,

This work plan is approved with the following stipulations:

- The trench at AH-2 must show a full delineation of chlorides present;
- BLM approval required;
- Please map the location of the temporary well (TMW-1).

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
Environmental Specialist
NMOCD District II
(575)748-1283 ext.101
