Heather,

Sample point 3 was never delineated. On 9/23/2013 Yates met with both NMOCD and BLM here at Yates' offices. It was agreed upon during this meeting that section 3 would be left alone and it only needed to be monitored to see if any chlorides came back to the surface. Based off of this agreement made between NMOCD, BLM and Yates no further work was done to the section.

Thanks,  
Amber

Mike/Heather,

Attached is a Final C-141, analytical reports and site diagram for the Dolores AIL Federal #1 (2RP-1635). This was all submitted to NMOCD back on October 30, 2013, and to my knowledge this release was never signed off on. Yates would like to get this Final C-141 signed off on and be done with the site.

All work done was based off a meeting that Yates had with NMOCD and BLM on September 23, 2013

.

Should you have any questions, please give me a call.

Thanks,
