NATURE OF RELEASE

Type of Release Produced Water; Crude Oil	Volume of Release 40 B/PW; 100 B/O	Volume Recovered 10 B/PW; 15 B/O
Source of Release Poly pipe rupture	Date and Hour of Occurrence 8/12/2013	Date and Hour of Discovery 8/12/2013
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher/NMOCD II	
By Whom? Robert Asher/Yates Petroleum Corporation	Date and Hour 8/12/2013	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*
A poly pipe ruptured

Describe Area Affected and Cleanup Action Taken.*
An approximate area of 75' X 50'. Spill is approximately 100 yards north of cattle guard where CR29 intersects, approximately 50 feet east of lease road at tin horn. The flow line valves were shut off, leak was isolated, and Dolores water pump was shut off. There was some overspray that reached vegetation northwest of the tin horn and across the lease road (this area was sprayed with micro blaze). A crew was called to do initial clean-up of the area, and all excavated soils will be disposed of at an approved NMOCD facility. Vertical and horizontal delineation samples will be taken and sent to a NMOCD approved facility. **Depth to Ground Water: >100' (approximately 150', Section 11, T22S-R31E, per Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 0. Yates Petroleum requests closed based off work completed as per approved NMOCD/BLM workplan.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
