Source of Release							Date and Hour of Occurrence Date and Hour of Discovery						
Poly pipe rupture Was Immediate Notice Given?						8/17/2013 8/17/2013 If YES, To Whom?							
☐ Yes ☐ No ☒ Not Required													
By Whom?							Date and Hour						
N/A Was a Watercourse Reached?							N/A						
Was a Watercourse Reached? ☐ Yes ☒ No							If YES, Volume Impacting the Watercourse. N/A						
If a Watercourse was Impacted, Describe Fully.* N/A													
Describe Cause of Problem and Remedial Action Taken.*													
A poly pipe ruptured Describe Area Affected and Cleanup Action Taken.*													
An approximate area of 75' X 50'. Spill is approximately 200 yards north of cattle guard where CR29 intersects. The release made a flow path on the east													
side of the lease road and overspray on the west side of the road. The flow line valves were shut off, leak was isolated, and Dolores water pump was shut off. The overspray that reached vegetation west of the lease road will be sprayed with micro blaze. Flow path on the east side of the lease road will be													
excavated and the lease road will be scraped. All excavated soils will be disposed of at an approved NMOCD facility. Vertical and horizontal delineation													
samples will be taken and sent to a NMOCD approved facility. Depth to Ground Water: >100' (approximately 150', Section 11, T22S-R31E, per													
Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 0. Yates Petroleum requests closure													
based off all work being completed as per approved NMOCD/BLM workplan. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and													
regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger													
				ce of a C-141 rep									
should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other													
federal, state, or local laws and/or regulations.												ly other
