Was a Watercourse Reached? ☐ Yes ☒ No	If YES, Volume Impacting the Watercourse.	

RECEIVED
AUG 1 2011
NMOCD ARTESIA

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* A connection in a new 4" poly line parted causing the release. The line was isolated and a vacuum truck was immediately brought to location. All free standing fluids were recovered.

Describe Area Affected and Cleanup Action Taken.*
The initial release area was south of Apache Corp. D State #5 (30-015-31422) location, measuring approximately 89' long by 23' wide. The release then flowed onto the Apache Corp D State #5 location measuring approximately 324' long by 62' wide. A small area located west of the location was also affected. This area measured approximately 21' long by 7' wide. Talon/LPE was contracted for the correction of this release.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
