Martha Creek Amended work plan.pdf

Hello Heather,

Please find attached the amended work plan for the above location. I changed the site ranking and the proposed remedial actions.

Please let me know if you have further questions or concerns.

Respectfully submitted,

Kimberly M. Wilson

Kimberly,

I saw that you resubmitted this last week. This is the response I sent out to Sheldon while you were out of the office.

Sheldon,

There seems to be conflicting data on the depth to groundwater in this area. The OCD has reason to believe groundwater will be encountered at a shallower depth, almost certainly less than 100 feet (see attached). Please review and adjust your site ranking accordingly. Further delineation will be required before excavation depths can be approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
