---

Mr. Bratcher,

No we did not get samples where the battery was, it was a lined facility. I am sending somebody out there this morning to collect the samples where the battery was. If you have any questions please let me know. Thanks

Kyle,

Did you get samples where the battery was at?

Mr. Bratcher

Letting you know that the area where the battery was on the Bunett Oil Co. Powers 31 Federal #3 is scraped and they are proceeding with the new battery installation. We are still scraping in the pasture. If you have any questions please let me know. Thanks
