Dear Bill - Attached is all we could find on this Cheesman well (& one in Sec 35). After quickly checking our records it appears that our interests are in rights below 3500' only. The record title is probably in Syndicate Oil Corporation but believe rights to 3500' are owned by Amoco and Yates's as to 1/2 each or perhaps Syndicate 1/2 and Yates's 1/2. To put it mildly its pretty - well screwed up. We have been paying rentals for several years just to be assured such were in fact being paid. We have some title information if you want us to pursue it further. Probably best to check with Yates but if we can be of any further aid

Thanks & regards
