Sorry about that Lupe! I didn't see that there was a liner present in the areas of S4 and S5. No further delineation is necessary. Your work plan is approved as written.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Lupe,

We would like to request further chloride delineation in the areas of S4 and S5. The OCD needs to review the complete delineation before a final remedy can be approved for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment.
