Subject: RE: Case No. 21528, OCD's Notice of Filing of Final Proposed Rules

Errata in OCD's *Notice of Filing Proposed Rules*:

Section 8(F)(2): OCD proposes to remove the words "to or" in response to NMOGA witness Leonard's testimony that measuring equipment is properly located on pipes carrying natural gas from equipment such as separators, heater treaters, and vapor recovery units to a vent or flare, not on the pipes carrying natural gas ~~from~~ to the equipment itself. OCD also proposes to remove the first reference to "after May 31, 2021" because it is redundant of another modification in the same paragraph.
