Lupe,

This looks great. Your work plan is approved as written. Please let me know if you decide to use an alternative to the liner, as we discussed in the field.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

RE: COG * Patton 5 Fee #2H * 30*015*39815 * 2RP-2645

Lupe,

Due to potentially shallow groundwater, the OCD would like to see further chloride delineation in the areas B2 and B4 before any remedial actions are approved for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
