Ms. Pons,

Your proposed work plan is approved as written. Please be sure to include final excavation depths in the closure report.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

HI Heather,  
I sent this to Jeff Roberston with the BLM this morning, and upon review of the C-141 I noticed that surface owner is State. Could you please review this at your earliest convenience and if you concur then we will start clean-up activities immediately.  
Thanks so much!  
Rebecca
