RE: Devon * Cotton Draw Unit #113 * 30-015-39517 * 2RP-2774

David,

Your proposed work plan for the above listed site is approved with the following condition:

Your confirmation sampling should follow the same protocols as your initial sampling (same depths).

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
