Jackie Brewer dba Sandlott Energy  
PO Box 711  
Lovington, NM 88260

Mr. Brewer,

The attached report and photographs were sent to the NMOCD District 2 Office by a representative of the New Mexico State Land Office. The subject produced fluid releases have been determined to originate from wells operated by Sandlott Energy. Please submit a Form C-141 for each the release events (as required by NMOCD rules) to the District 2 office in Artesia. Remediation by an OCD approved remediation proposal will be required.

Thank you,

**Mike Bratcher**

Hello everyone, I received a report of a small spill in Eddy County yesterday afternoon. During a site visit this morning, I uncovered several spills and poorly maintained oilfield equipment. I have a feeling there are additional spills to be uncovered in this particular section. Attached is a brief spill report with photos and a map.
