---

Yes, you need to send the work plan to us. You are required to have OCD approval as well as BLM. While we often agree with the BLM on the course of action, we look at different environmental factors, and therefore may have more requirements.

Heather,

Memorial had eTech do the delineation, the remediation work plan was written up to scrape and re-surface, but not yet submitted to OCD. In the meantime BLM called and had driven by, Art Arias called me last week and requested we scrape and resurface asap, we had equipment on location and immediately did the work. I had inadvertently forgot that a work plan had not yet gone out to OCD, are we ok? Do I need to send the plan we had written up in to your office?

Thank You for your time

Heather,

This is just to let you know I altered your C-141. I changed it from a Final Report to an Initial Report. The OCD will need a delineation and a remediation work plan for this release.

Thank you,

Heather Patterson
