**RE: BopCo \* PLU 213 Tank Battery \* 30-015-33859 \* 2RP-2953**

Tony,

This closure request is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Mike, Heather

Please find the attached soil closure request for the truck load line spill at the PLU-213 Tank Battery Location.

This is another one that wasn't discussed along with the multi-colored map in March.

Basin Cleaned this one up while working on other spills at the location.

Regards

Tony
