**RE: BopCo \* PLU 105 Flowline \* 30-015-27895 \* 2RP-3225**

Bradley,

This closure request has been approved. The shallower excavation depths and lack of liner were approved by OCD due to the presence of a pipeline in the area of release.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns please contact me.
