RE: COG \* Illustrated Man Fee Com #1H \* 30-015-41025 \* 2RP-3382

Austin,

Your work plan for the above referenced site is approved with the following conditions:

- Your confirmation samples and final excavation depths are to be submitted to the OCD for approval before this site is backfilled;
- The chlorides discovered at C3 and C4 are to be fully delineated (vertically and horizontally) and remediated to OCD standards.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson  
Environmental Specialist  
NMOCD District II  
Office (575)748-1283 ext.101  
Cell (575)703-0228
