RE: COG \* Tex Mack 202 \* 30-015-35914 \* N-2-17s-31e  
**2RP-2840** \* Date of release: 2/7/2015

Robert,

Your proposal for remediation of the above referenced is approved. For clarification, it is OCD's understanding that the site ranking for this project is zero. On the analytical data table, the sample point marked T3 should be AH-3. Please advise if these observations are incorrect.

OCD does request a sample be obtained from the bottom of the excavation in the area identified as AH-1, and tested for BTEX, for confirmation.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
