Thank you Vernon, this amended work plan is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Hello Heather,

I've attached an amendment that I feel will satisfy the two concerns you had with my original proposal.

Thanks,
VKB

RE: Devon * Pure Gold C-17 Federal #4 * 30-015-27153 * 2RP-3324

Vernon,

The OCD cannot approve this work plan as it is written. Our main concern is the contamination at the 2 foot level at SP#2 that a 1 foot in situ remediation may not reach. In addition, I will need a confirmation sample from the overspray area. Can you please resubmit a remediation proposal to address these concerns.

Thank you,
