Subject: RE: COG Operating - Willow A State #3 - Work Plan Approval Request
Attachments: COG - Willow A State #3 - Work Plan .pdf

Mike,

Tetra Tech is preparing to start the soil remediation on the above reference site. We will be spotting lines on Monday (4-1-13) on the Willow A State and starting the excavation in the afternoon. The remediation will be performed according to the submitted work plan (attached). Tetra Tech will also notify you during each phase of the remediation project. Once completed, a closure report will be prepared for the site. We will call if the schedule changes or have any delays on the project. Let me know if you need additional information, thanks
