Ben,

Your proposal for delineation of the above referenced site is approved. Deeper delineation than the proposed 15' (or hard caliche layer) may be required based on analytical data.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or

regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: Maljamar Station - Delineation Work Plan

Mr. Bratcher & Mr. Pair,

Basin Environmental, on behalf of Plains, is pleased to submit the attached *Delineation Work Plan* for Plains' former Maljamar Station in Eddy County. Basin is prepared to begin delineation activities upon your review and approval.

If you should have any questions, comments, or concerns, please do not hesitate to contact me by telephone or email.

Thank you for your time and consideration.

Respectfully,

Ben J. Arguijo
