Re: Pyote-Willow Lake #1 SWD Incident April 25, 2014

This memorandum is to inform you that this spill has been cleaned up, the contaminated soil removed and taken to an approved disposal site and clean soil brought back in and the land reclaimed to my satisfaction. I am of the opinion that OCD can move forward in closing this RP with Pyote.

Should you have any questions please don't hesitate to contact me.

Respectfully,

  
Scott Branson
