The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Shelly,

I'm not familiar with the acronym *CAP*, however, the BKU Central Tank battery has sampling scheduled in the upcoming weeks. We will submit a workplan for approval once delineation is complete. Please feel free to contact me if you have any additional questions.

Thank you,

Morning! Hope you all had a great weekend. I was checking on the status of this clean-up....
Have you designed a CAP?

I

f you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Subject: (Notification) Burch Keely Water Flood Central Tank Battery

Mr. Bratcher,

COG Operating LLC is reporting a release on the Burch Keely Water Flood Central Tank Battery

Section 24 Township 24S Range 29E

The release occurred at 6:30 am on 8/20/2015.

Released: 20 bbls Oil; Produced Water 580 bbls

Recovered: 10 bbls Oil; Produced Water 560 bbls

The release was caused by an alarm failure and remained on location. The site is being evaluated for clean-up and a C-141 will be submitted. If you have any additional questions please feel free to contact me.

Thank you,

Amanda Trujillo
