Heather this is another one of the sites discussed back in March 2015 for the PLU-213 Tank Battery  
API 30-015-33859

I found the C-141 and NMOCD correspondence on-line.

I found the remediation plan put together by Stoller in the well files in our office.

The spill was dated 11/26/05, I guess before there were RP#'s assigned.

This will come in two parts due to the size.

I will be by your office by noon tomorrow to discuss and bid my farewells.

Thanks for all your help I have enjoyed working with you and Mike.
