RE: BopCo \* PLU #213 SWD \* 30-015-33859 \* 2RP-1221

Good Morning Tony,

This closure request is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson  
Environmental Specialist  
NMOCD District II  
Office (575)748-1283 ext.101  
Cell (575)703-0228

Heather, please find the attached soil closure request and Final C-141.  
Spill dated 6/23/12 at the PLU-213 SWD (API-30-015-33859) Spill reference 2RP-1221.  
Sorry for the delay, this is one of the multi-colored sites discussed back on 3/14/15. All of the soil was excavated as discussed after a review of the analytical data.  
I think you have a copy of the lab data but I will send on a separate e-mail due to the size.  
I will have one more closure to send before I retire on Friday 1/15/15.  
Thanks  
Tony
