RE: COG * JR's Horz Fed #1 * 30-015-33066 * 2RP-3386 * Pad section only

Lucas,

This approval is for the pad portion of the clean-up efforts only.

With the additional information provided, the OCD can approve a 2 foot excavation of the pad. Like approval by BLM is required for this location.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
