Amber,

Your proposed work plan for the above listed release is approved. Like approval by BLM is required on federal sites.

Please note, the ChevronTexaco Trend Map actually puts ground water at less than 100' in this location.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
