RE: Linn Energy * Skelly Unit 301 * 30-015-29496
2RP-1214 * Date of release: 6/20/2012

EL,

Your proposal for remediation of the above referenced release is approved. Please advise as to what medium will be utilized in the area identified as SP-3. Like approval by BLM is required on Federal sites.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
