RE: Burnett Oil * Gissler B 31 * 30-015-32200 * 2RP-3320

Johnny,

You are approved to begin work as per your proposal for the above listed release. The OCD would still like to see a vertical delineation at T-1. In addition, at time of closure the OCD would like to see the top 4' of soil displaying chloride numbers low enough to support vegetative growth. Please obtain like approval by the BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
