RE: BOPCO * PLU 345 * 30-015-39488 * 2RP-3508

Bradley,

Your request to backfill and submit closure report for the above listed release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike/ Heather,

Per our meeting and discussion on 2-11-16, BOPCO has sent an environmental response crew to the site and conducted an initial scrape of the spill area along with a sampling event. Based on the review of supporting documents BOPCO request permission to backfill the surface excavation and submit a closure report.
