Shelly and Heather,

I was out there yesterday. I needed to have the pictures with me or a site map to pull samples in the impacted area. I have drawn a site map this morning. I will get out there Monday to collect the samples and get that work plan together. I have a safety meeting tomorrow.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Shelly and Heather,

I didn't realize the pictures were attached to Heathers response. Brett sent me the original pictures today. I'll get this done next week. I've got safety meetings for the next few days.

Re: Devon * Cotton Draw Unit #89 * 30-015-31381 * 2RP-3198

Kimberly,

The OCD is in receipt of the work plan for the above listed release. This work plan is denied. The impacted area as described in this report does not match the pictures sent to the OCD (see attached).

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
