RE: Devon * Bellatrix 28 Fed #1H * 30-015-40331 * 2RP-3478

Vernon,

Your proposed work plan is approved. Keep in mind that if RRAL for the site has not been achieved after 180 days, OCD will require impacted soils to be removed to a disposal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Good morning Ladies,

Please see the attached work plan for the above referenced location. Upon approval, I can get a crew on it pretty quick.

Thanks in advance for your help.
