Lucas,

Your proposal for further delineation of the above referenced release is approved. Please note, the site ranking is determined by lower most point of contamination, and consequently may need to be altered once this site is fully delineated.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
