Subject: RE: OCD Reportable MG-1-1-ext pipeline Remediation Plan

Mr. Case,

Your proposal for delineation of the MG-1-1-Ext pipeline release discovered 2/15/16, is approved. Please provide OCD with analytical data and updates as the project progresses. I will provide a 2RP tracking number for reference once it has been assigned.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: OCD Reportable MG-1-1-ext pipeline Remediation Plan

Mr. Bratcher:

Here is the Remediation Plan discussed by Randy Pair (BLM) and myself this morning at the leak site from the 02/15/2015 MG-1-1-ext pipeline
I will await your approval before we proceed with further repairs/ remediation.

Mr. Pair:

Please advise DCPM on the lateral excavation and possibility of any Arch-survey/ site considerations we may need to take.

Thanks

Nicholas L. Case
