Subject: Government D 4- Release

Mike/ Jim

Per our phone conversation on 7-12-12 this e-mail is ensuring notification of a release the Chesapeake had on the Government D #4. A one inch injection hose ruptured releasing 20 barrels of produced water to the ground surface, 15 barrels was recovered by vacuum truck. Environmental cleanup crews were dispatched to location to start cleanup. EPI will be excavating soils from location, pasture and delineating the flow path and will collecting samples of these areas. If you have any questions please let me know.

Thank you.
