Good Morning Bradley.

Mr. Bratcher is out of the office until tomorrow. I have the initial and final release for the Government D-4. And am I understanding that you are looking into the work plan and Closure reports for the Government D-4?

Also the other releases that you have are: PLU Phantom Banks 3-26-30 1H Patterson 62 rig (4/13/12), and Old Indian Draw Unit CTB (10/20/12). Do we have any information about these yet?

Thank you so very much for all of your help and response. It is truly appreciated.

Sorry for the confusion on some of the info, we lost a lot of our information during the change over from CHK to Chevron, I am working with our consultants to track this info down. If you have any questions please let me know.

Thank you
