**RE: Alamo Resources \* Empire J Fed #3 \* 30-015-00169 \* 2RP-1184 \* 2RP-928**

Lucas,

Your closure request for 2RP-1184 is approved. I cannot close out 2RP-928 without some further information. Google Earth Imagery shows the frac tanks responsible for this release on the south side of the pad, therefore we will need confirmation sampling to show this area is clean.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
