RE: Alamo Permian * Solt State #1 * 30-015-25277 * 2RP-1167

Lucas,

Your remediation proposal is approved. Delineation goals for chlorides are 250 mg/kg vertically and 800 mg/kg laterally.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
