

Sampling Summary for "" Compressor Station

| Analytical Report 1603356 | | Sample Date | Depth | BTEX (ppm) | GRO (ppm) | DRO (ppm) | Cl- (ppm) | Comments |
|------------------------------|-----------|-------------|-------|---------------|--------------|--------------|-----------|---|
| 1603356-001 | 2/26/2016 | 0'-1' | 4.48 | 240 | 1900 | 2800 | | Taken from lowest point inside the earthen berm (approximately 35' x 35' on the inside of the walls. |
| 1603356-002 | 2/26/2016 | 1'-2' | 1.27 | 15 | 25 | 910 | | Taken from lowest point inside the earthen berm (approximately 35' x 35' on the inside of the walls. |
| 1603356-003 | 2/26/2016 | 24"-30" | ND | ND | 18 | 850 | | Taken from lowest point inside the earthen berm (approximately 35' x 35' on the inside of the walls. |
| 1603356-004 | 2/26/2016 | 0'-1' | 0.9 | ND | ND | ND | | Background sample taken 200' to the south of the containment. This was the area with the thickest top soil, and would allow us to collect adequate samples. |
| 1603356-005 | 2/26/2016 | 12"-20" | 0.71 | ND | ND | ND | | Background sample taken 200' to the south of the containment. This was the area with the thickest top soil, and would allow us to collect adequate samples. |
