Subject: RE: OXY - Harroun 15 #12 - Remediation Plan

RE: OXY USA * Harroun 15-12 * 30-015-32117 * **2RP-3535** * DOR: 1/10/16

Cliff,

Your proposal for remediation of the above referenced release is approved. OCD agrees that the elevated chloride levels are likely residual from the original drilling pit. At this time, OCD requests that the proposed soil removal be limited to the caliche pad and not disturb the pit area. Please advise once remedial activities have been scheduled for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: OXY - Harroun 15 #12 - Remediation Plan

Mike,

This e-mail is to confirm our discussion concerning the remediation plan for the Oxy Harroun 15 #12 release. I have attached the information packet that we used in our discussion with a cover page describing the remediation plan that we agreed upon.

If you would please reply back via e-mail with your concurrence on this plan, it would be greatly appreciated.

Thanks, Cliff
