RE: Linn * Turner B 99 * 30-015-26621 * 2RP-1054

EL,

The OCD would like to have this area re-sampled. The sample data in this report is almost 2 years old, with several major rain/snow events occurring during that time. Please make sure you provide adequate lab data to support any future proposal.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
